REGAL LILIES

Regal Lilies are about the finest white lilies grown. They are hardy in all parts of the country. Do the best when planted 8 inches deep in well drained sandy soil. May be planted either early in the spring or in late October. Do not expect them to bloom well the first year unless you plant them by May 1 or as soon as the frost is out of the ground. We will not ship after May 10. Please order early.

Small bulbs, 25c a dozen. Medium size bulbs, 15c each, \$1.50 doz. Large bulbs 25c each, \$2.00 per doz. Postpaid.

FLOWER SEED

Only a few varieties that are well worth trying and easy to grow. A little care at the time of sowing the seed means a lot in results. Don't let seed become dry after planting. Keep seed boxes warm until plants are well up. Transplant seedlings when second leaf has developed, setting them at least 2 inches apart. Seed may be sown in open ground after weather becomes warm.

REGAL LILY

One of the best sweet scented hardy lilies. Grows 4 feet high. Packet of 100 seed, 10c.

BUSH BALSAM

A great improvement on the old balsam in that the flowers are borne on the ends of the branches. They are double like small roses, colors are pink, white and red. Makes an attractive pot plant. Seed in mixed colors only 25c a packet.

Nasturtium, GOLDEN GLEAM

Large semi-double golden sweet scented flowers on long stems. Seeds 15c a packet.

Marigold, GUINEA GOLD

Something new in this flower. Plants grow 2½ feet high covered with double and semi-double yellow flowers on long stems. Fine for cutting. Give full sun and not too rich soil. Seed, 20c a packet.

The above high grade seed should not be confused with inferior quality offered at lower prices.

ALWAYS WRITE YOUR NAME AND ADDRESS PLAINLY.

If you want my price list next year, send an order this year or ask for it. Always glad to send it to anyone who is interested in flowers.

PLEASE ORDER EARLY!

It seems to be a popular idea that unsold bulbs are thrown away. This is not so, but we begin planting May 1 and of course after they are planted we cannot dig them up and sell them to you. This is not the only reason why your order should be in early. Early orders get the most generous overcount and are usually filled complete. Late orders frequently have to be returned, an inconvenience to the customer and ourselves. If you will cooperate with us in this we can give you better service. 25% Deposit will hold bulbs till April 15th.
